The unlocking mechanism of this gate is inside the gear, but it will not work until the gear is turning. It is imperative that you download the map before doing anything else, as it unlocks a key feature of the dungeon. You may notice that there is shallow water under the bars coming out of the map terminal. Find a strategy that works for you and regret Waterblight Ganon until it is no longer a problem.If you're still struggling, you can also check out this video guide for extra tips on hitting the boss.Discover all there is to know about Zelda: Breath of the Wild, including what to expect from the Wii U version, how to preserve your items, how to beat bosses like Stone Talus and Lynel, the best recipes for Link, and how to take on the sanctuaries of the game. If you're struggling to win the mission Vah Ruta The Legend of Zelda: Breath of the Wild you've come to the right place. If it isn't, you won't be able to activate it. Breath of the Wild9A Vah Ruta walks: Terminal 3The third terminal is a bit more problematic because you can't get to it without making the other, larger gear turn. He telegraphs it up in the air and presses it up; the best thing to do is run and use the opening since he did to get some hits in.Once his health is halfway gone, the fight goes into a second phase. It is spinning because of a water spout on one side of it. Before doing anything else, take care of the little guardian monster. This presentation will show the way. (Editor's note: Spoilers from the Vah Ruta portion of The Legend of Zelda: Breath of the Wild ahead.) At the beginning of the story of The Legend of Zelda: Breath of the Wild, Link is tasked with finding the four divine beasts and clearing them from the corruption of Calamity Ganon. For this second phase of the fight, remember that the Zora armor makes you swim faster. Once you're not high enough, jump and slide to Ruta's back. Look up to find the eyeball and make it go away.Keep going until you reach the third terminal, which is behind a port. Unfortunately, these terminals are hidden behind a lot of physics-based puzzles. There will be some corruption in your path that presents a spawning point for enemies. You will also want to find out where all the great fairies in the game are and how to use Amiibo with your version of Zelda. You don't need to go here until you have found all five, so leave it for now.Zelda: The breath of the Wild9Aava Vah Walkthrough: Terminal 2 above the second floor. Like everything else in this game, you can't fight it in a variety of ways. In the eating, it is probably easier to approach, cut with weapons of a hand and use a shield or dodge when it is about to attack. Instead of using an item to expose your weakness three times, any attack that you will not land will damage your now vile health bar. Adjust the trunk of Ruta until Water is pouring through this new sunroof that you have not created, which will put out the fire around the terminal room directly of you.Zelda: The respiration of the Wild q step: 5DROP terminal down and use that waterfall to make your way path up to the trunk of Ruta. Turn it until the roof above you opens. Unlike bosses in previous Zelda games, Waterblight Ganon can be fought as you please. Use Cryonis on the nozzle itself to lock it, but make sure it is timed so that the terminal is in an upright position. The only other thing to know is that he will occasionally make a land pound attack, if you are close to him. No, seriously. There is a water pool with a large rotating lever on the wall. Once he was coming down, I moved and hit him with a two-handed sword to do massive damage. There will be a hole in the ground here that you must fall into a corrupted eye on the ceiling, which unlocks a mechanism that you can rotate with magnese. Point your Cryonis Rune on the floor below the bars to use a block of ice to lift them up. If you still have any shock arrows left from the sequence before entering Vah Ruta, they will do extra damage to Waterblight Ganon. Foods to regain health or increase your attack and defense as needed. Kill the guardian and hit the switch on the ground to create a waterfall shortcut, you can use with your Zora Armor. There is the only passage out, which leads out to the trunk itself. Climb up and activate it to get the first of the five terminals out of the way.VG247Immediately to the right of the first terminal is a ramp leading up to the main control room of VAH Ruta. Once you are dead, note that this room has two huge gears. However, these beasts are not mere animals; Each is a gigantic mechanized breeder with something like a traditional dungeon dungeon inside IT.perhaps The easiest to do first is Vah Ruta, a gigantic mech elephant that is bringing torrential torrents into the domain of Zora, throwing water out of its huge trunk. Open your map and readjust the trunk of Ruta, so it's about three uo etnom mu elen odnetab oEhnc on riac ol-9Azaf e ol-9Aodrota edop 9Acov .ocra ues ed opot o 9Ata ohnimac od o .alen oEAdraug mu moc razilsed e ralup arap amrofatalp amu jArev 9Acov .eled ohlo on rarita e etnerfid amrofatalp amu arap ri iof zif ue euq o sam .oxiab ed racata e ele moc revom es ratnet .edop 9AcovVehuTuoY /ecroFhctiWS .samrofatalp sassed amu ed amica etnematerid odonocisop jAraSse erpmes ele sam .alas ad roder oa revom es iav thgilbretaw nonaG .o-etnavel e salam-atrop od atnop an euqif .aroga74ZGV .iuga jAtse 9Acov otnauqne oliap o enugep e oEASApurroc a erIT .odipmrorc odol olep sodaeuqolb solhimac enugla e moc radil arap se9Aidraug sogimini sonoeqep ed rap mu m9Abmat .jAH radna omix9Arp o 9Ata jAravel o euq apmar a 9Ata jAv .oriemirP.oEAS9A me artne atur ed salam-atrop o euq iuga A .oEAS9Aator me .ronem meganergme od ortmed jAtse lanimret odnuges O .9A oEAn roiam o ovitator 9A siot sod ronem O .salam-atrop o jAtse edno .atuR a arap etnerf ed euqif e opot o 9Ata edna .etlov es ele euq 9Ata ele erbes odnatnemal e sofAm saud ed setrof siam samra saus raxup origus ue .ol-9Aodrota etnemlaer 9Acov eSebuTuoY /ecroFhctiWS.odareleca otnir me efehc ed atul amu me osicerp meb ova mu reuger euq o .ahceif amu moc ohlo on eIE
